

MONKEYPOX IS NOT A SEXUALLY TRANSMITTED INFECTION

Not understanding how monkeypox spreads can put you and your community at risk.

MONKEYPOX SPREADS THROUGH TOUCH

- Direct contact with monkeypox rash, scabs, or body fluids from a person with monkeypox.
- Touching objects, fabrics, and surfaces that have been used by someone with monkeypox.
- Contact with respiratory secretions.

MONKEYPOX PREVENTION STEPS

1. Avoid close, skin-to-skin contact with people who have a rash that looks like monkeypox.
2. Avoid contact with objects and materials that a person with monkeypox has used.
3. Wash your hands often.
